Reader's Opinions

I was given this book by a relative who had visited the Channel Islands, and was interested in reading it to prepare myself for a visit I will be making to the Channel Islands very shortly. I had read several other books on Guernsey and Jersey before reading this one so didn't come at it with a blank slate. This book is absolutely loaded...

Bought this whilst on holiday in Jersey - (it being the story of the German Occupation of the Channel Islands) I thought it was pretty interesting.
