Peek Inside the Book

Smyth's predictions of the date of the Second Coming, as with everyone else's predictions of this event, have proved inaccurate. David J. Hand, *The Improbability Principle: Why Coincidences, Miracles, and Rare Events Happen Every Day* //

Reader's Opinions

Statistics. Pretty basic with a nice coherent framework to make it understandable and useful. Examples from everyday life depended a bit heavily on throwing dice. I would have liked to...

On April 23, 1999, Fernando Tatis of the St. Louis Cardinals hit a grand slam home run against Chan Ho Park of the Dodgers. That's not an overly rare event. However, Tatis didn't hit just one grand slam off of Park. He hit TWO. And they...
